### **Covid-19 Update**

Kia ora koutou

With so much information and misinformation swirling around about COVID-19, I wanted to share with you what will happen if we were to have a case in our school community. We have been planning for this and are in a position to respond quickly.

- As soon as a case is confirmed in our immediate school community (eg. a student, staff member, or member of their household), the Medical Officer of Health and Ministry of Education will inform me about this, and we will work together to get quick and clear messaging out to you.
- If there was a case confirmed of someone in our school, we will likely be asked to close temporarily by the Medical Officer of Health. This will allow time for close contacts to be traced, appropriate testing to be undertaken, and a careful clean of the school to be undertaken.
- If our school does need to close temporarily, we have a plan in place to support student's learning.

We know COVID-19 feels scary and of course people are concerned for the wellbeing of our children. Please be assured that with no case confirmed in our school, your children are safe here.

Good hygiene is a priority at our school, and we are reinforcing this regularly with all students and staff. We know that practicing good hygiene is still the best thing we can all do to prevent illness.

We are getting the most up to date advice and guidance so that we can confidently make informed decisions about the safety and wellbeing of our school community.

We need your current contact details so that we can communicate with you at very short notice via our text messaging service. Please complete the form below and send back to kura as soon as you can. Also make a friend request to our schools Facebook Page. We are putting up information from the Ministry of Education and Health as soon as I receive it.
